

## Coral Reefs Dying At Record Rates

Written by Administrator

Wednesday, 18 August 2010 19:46

---

News out of Indonesia indicates that coral reefs there are dying at record rates due to warmer temperatures. The hotspot has affected reefs across Indonesia as well as in Malaysia, Thailand, Vietnam and Sri Lanka, and it is now pushing its way northward. The death of the coral is attributed to a dramatic rise in water temperatures off northwestern Indonesia. More [here](#)
